TOGETHER FOR YOU

We are Luca and Giovanni, an architect and an interior designer, after our studies abroad we gained experience in the hair salon furnishing sector, before setting up our own business specialising in the beauty sector, aiming to provide a complete service, from design to marketing, from fitting out to communication.

Research is in our DNA, over the years we have travelled between New York, Japan, Amsterdam, Milan and London, gathering elements which help us to continuously develop ambitious projects, setting trends in our own field.

Imagine, dream, create ...  
your story is told on your skin, in your eyes  
and in your hands.  
To emerge in the world today, you have to let  
your own features shine through.  
Be unique, choose your strength and  
develop it to the full, be courageous,  
invest in the job you love.

Believe in yourself! **BE DIFFERENT!**

## New York New York

The concept of this furnishing line is inspired by the lively New York mood, which responds to the demands of our post-industrial era, where the reuse of abandoned areas has become fashionable.

From the industrial warehouses of Brooklyn to the trendiest lofts in Manhattan, this is the style that dresses and characterises the coolest spaces.

The New York New York line talks to an alternative, rock and worldly-wise client who is always on the look-out for distinctive features, able to create a strong, clear identity, an extrovert, extravagant soul that communicates the salon's most authentic character.
