

WELCOME

Thank you for choosing Takara Belmont.

Since our inception in Japan in 1921, our passion and vision has led to the creation of the world's most innovative, multi-functional furniture and equipment. The culmination of our mission to bring you the most technically advanced products is contained within the pages of this brochure.

Almost a Century of design and manufacturing expertise is inherent in every one of our products, which has resulted in a transformation of equipment experiences for business owners, barbers, stylists, therapists and their clients.

From the humblest of beginnings as a family-run business in Tokyo, our evolution into a global brand that has set new benchmarks of superior quality, iconic design, unrivalled performance and supreme functionality is inspired by you. Our knowledge of your business, our understanding of your clients' service expectations and our insight into the operational needs of your team, has enabled us to create revolutionary solutions that are renowned worldwide.

With a determination to contribute to Japan's reputation for advanced technology, we have transformed functional products into multi-functional experiences. We were the first company

to introduce motorisation to chairs and shampoo systems, and the application of infrared and ultrasonic technology has seen the invention of processing technologies that revolutionise colour results, treatments and chemical service outcomes.

Our ability to anticipate future trends and meet with new innovations has also transformed the commercial potential of salon businesses. From salon design to modular furniture, high-tech chairs to fully motorised shampoo systems and technical equipment, we work with salons to embrace new ideas that innovate their service proposition and generate untapped revenue streams. From iconic barber chairs and service stations, styling chairs and accessories to the world's most luxurious chairs and equipment, we promise to deliver everything you need to distinguish your brand, delight your team and customers, and realise your commercial potential.

Today, we are as true to our original philosophies of partnership, service and innovation as ever, and we remain a family-owned company committed to the interests of our customers.

**T. Hoshina, Managing Director,
Takara Belmont Europe Ltd.**

TAKARA BELMONT OUR STORY

Takara Belmont may be unrecognisable in the 21st Century from the small, family business first incorporated in Japan in 1921, but some things have remained the same.

Our founding principles of exemplary service, precision in every product and the pursuit of innovation to elevate the customer experience have not changed. A steadfast ambition to be world-class from the start, to push the boundaries of invention, dream the impossible and make real the imagination of barbers, hairdressers and beauty businesses remains our mission. And our goal to become the benchmark for high-tech, performance-led products that stand the test of time, are values and cultural philosophies being realised in our products and services today, just as they were then.

As the first barber chairs rolled off our small production facility, our objective to define standards of craftsmanship, design and supreme functionality was ignited. Our intention to shape the industry, absorb different barbering and hairdressing cultures around the world and embody these influences into products that reflected global trends and service expectations, whilst always remaining timeless and contemporary, is evident in our evolution.

Over three generations, we have successfully designed products that accrue more appeal with age. Our state-of-the-art

manufacturing processes ensure durability and longevity, giving customers decades of dependable performance, style and service. From barber chairs we evolved into styling chairs, backwash systems and beauty equipment. With an instinctive leaning towards invention and technology, motorised and automated functionality was soon added to chairs and shampoo systems. Ingenious space saving concepts revolutionised service provisions in the shape of the Salon Console, as infrared and ultrasonic technology produced ground-breaking hair care technologies in the form of the Rollerball, Micromist and Spa Mist II.

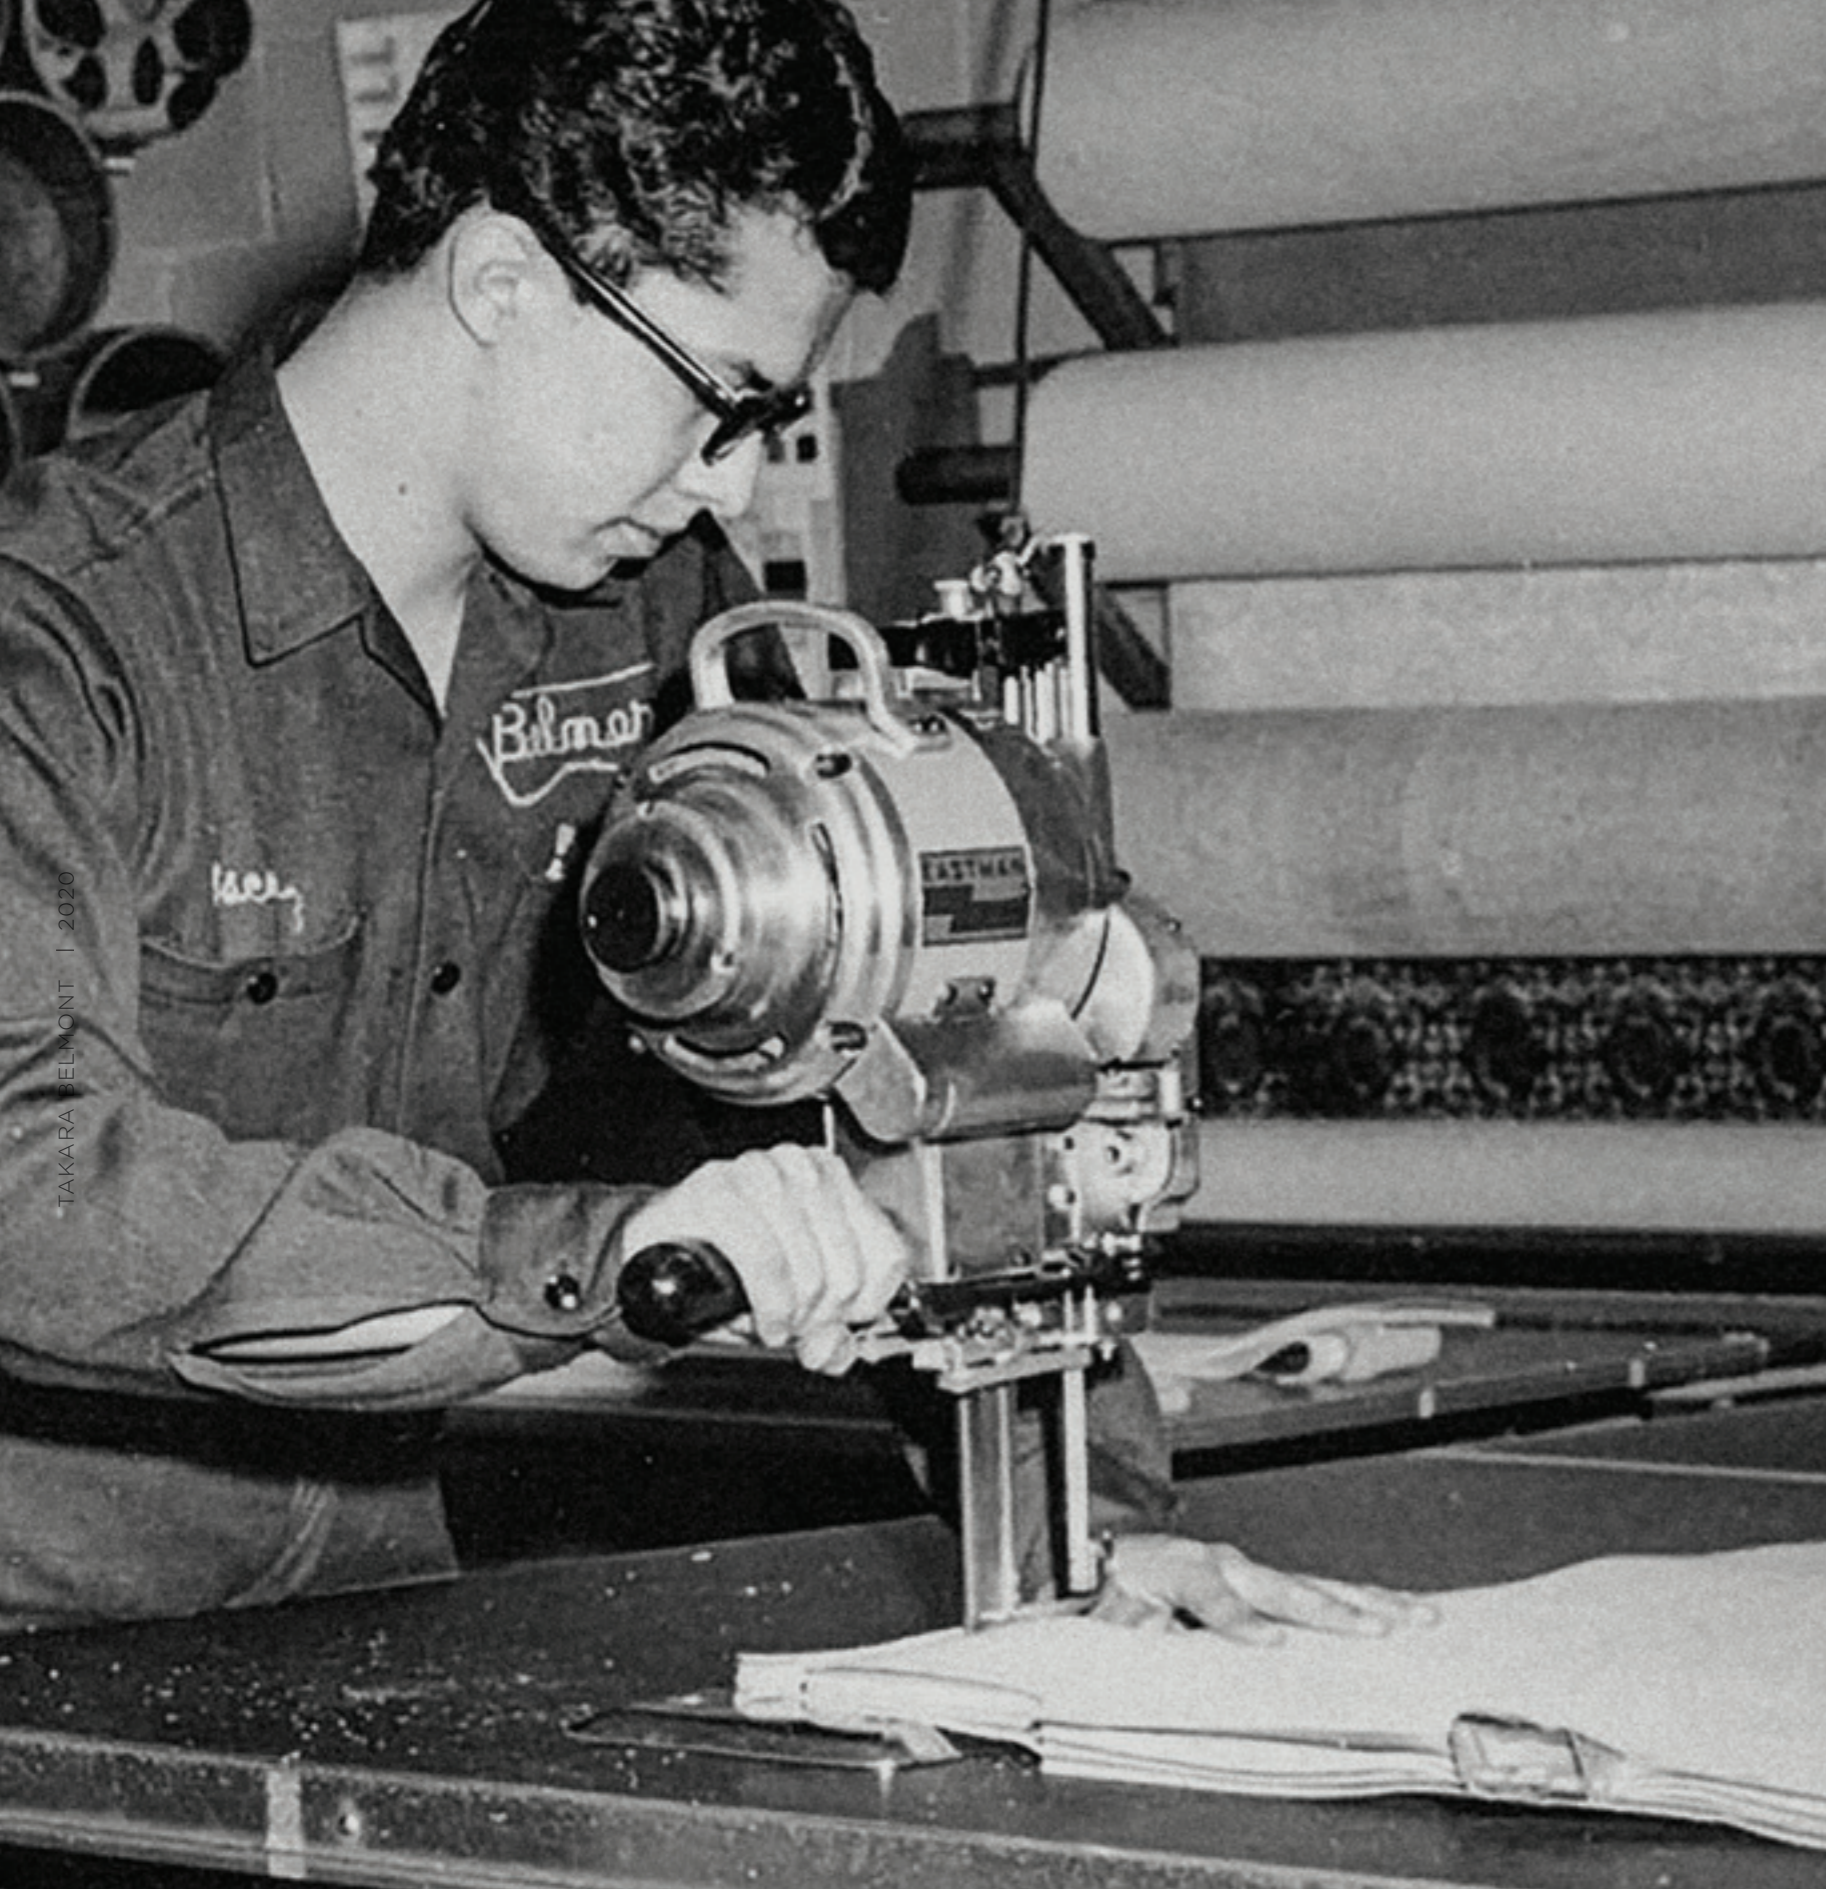

Despite changing interior and design trends, our ability to transcend fashion by creating products with universal appeal and timeless style is embodied in our most iconic offerings. Traditional grooming chairs, most notably the Apollo 2 and the Adria II styling chair, enjoy enduring popularity and remain global best sellers despite being introduced in the 1960s and 1970s respectively. And as we enter the 21st Century, the Yume DX shampoo system represents the pinnacle of innovation and almost a Century of endeavour.

With a rich heritage and cultural past, Takara Belmont continues to embark on a journey to modernise, innovate and deliver world-class products, services and solutions that ensure your future success.

Takara Belmont - the real original.

JAPANESE DESIGN SINCE 1921

TAKARA BELMONT | 2020

From the very beginning, our mission to set new benchmarks of iconic design, performance-led functionality and unsurpassed quality was reflected in our attention to detail.

Only products built to our world-class standards bear our hallmark. Takara Belmont - the real original.

Nurturing the expertise of our team and investing in state-of-the-art manufacturing technology are key priorities.

OUR HISTORY

01.

Attention to detail and uncompromising precision have been guiding principles in our product design and manufacture from the outset.

02.

01. Initially named the Kenesen when first introduced in 1976, this chair design evolved into the Adria that has been modernised over the decades to become a global styling chair icon.

02. Takara Belmont arrived in London in 1959 embarking on a mission to redefine salon experiences and elevate global equipment expectations.

BARBER COLLECTION

Barbering is in our DNA and our global reputation is defined by timeless design, superior quality and sublime comfort across our entire range. Often impersonated, yet never equalled... it has to be Takara Belmont.

18Fourteen

From retro inspired vintage barbershops to contemporary, minimalist, fashion-first and luxury grooming emporiums, the Apollo 2 adapts effortlessly in every environment.

03.

03. Inspiring equipment paired with luxurious motorised chairs transforms interior perspectives and elevates client expectations.

04. The Apollo 2 adapts seamlessly to every environment. From vintage to traditional and from contemporary to futuristic, its timeless class has poise and stature that is second to none.

04. Salone Rubiera

BARBER CHAIRS

The epitome of world-class barber chairs since 1921.
Often impersonated yet never equalled.

Versatile and agile, the APOLLO 2 easily adjusts to recline your client into the perfect position to receive their service. It also works in perfect symmetry with our barbering equipment for the ultimate service experience.

A fully adjustable headrest is just one of the standout features that ensure absolute comfort for the client and ergonomic convenience for the stylist.

The APOLLO 2 dynasty has evolved with new iterations; here in the form of the APOLLO 2 ELITE. It's unmistakably an APOLLO 2 in every sense with cosmetic refinements that extend its appeal to hairdressing, beauty and spa, as well as traditional and luxury men's grooming establishments.

APOLLO 2 — SINCE 1961
The true original with an iconic global status. Often impersonated, yet never equalled.

APOLLO 2 ELITE — SINCE 2016
The first evolution of the Apollo 2 dynasty with refined matt or gloss black or white gloss iron works and contrasting piping.

3 metalwork options

APOLLO 2 ICON — SINCE 2017
Our latest iteration of the Apollo 2 radiates luxury with quilted diamond stitching that advances this icon of barbering to new echelons of refinement and comfort.

Reassuringly robust and distinctive in design, the cast iron signature frame and padded armrests with chrome cuffs are enhanced with iconic traditional features including a towel rail and optional shaving bowl. Heat-pressed upholstery*, base options, customisable features and upgrades enable the Apollo 2 to be tailored to your needs.

HALO LEATHER CARE

Hand-made leather upholstery

This genuine leather product is manufactured by hand. This may cause variations in; wrinkling of leather, distortion of rivet lines, texture of rivets, appearance and antiquing of leather. The inherent property of these chairs, is that the more they are used, the more unique they become.

- 1 Clean regularly using recommended product - if moisture, dirt or dust is left untreated, it may cause mould.
- 2 When using the recommended soft cleaner do not rub, but wipe carefully.
- 3 Do not clean with chemical cleaning wipes, washing up detergent, hand cream, milk, shoe cream, benzine, kerosene, erasers, sponges. These may change colour of the leather and chemically alter the leather surface, causing loss of flexibility and hardening of the leather.

VINTAGE ALT SERIES

Authentically retro in every detail, Vintage Alt embodies our rich hairdressing heritage. We adhere to traditional materials, construction principles and finishing techniques to present a heritage series built for the modern era.

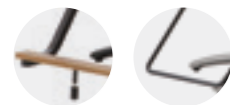

VINTAGE ALT symbolises almost A CENTURY OF MANUFACTURING HISTORY, as we delved into our rich heritage to create a truly inspiring, authentic retro collection.

BACKWASH UNITS

Uncompromised luxury and comfort are integral to customer satisfaction. Discover accomplished concepts that elevate backwash services and exceed expectations as we transform everyday products into multi-functional experiences.

Daniel Galvin

Customer experience is the verdict of every client. Only you can set the scene to excite their senses, inspire their mind and soothe their soul.

BACKWASH UNITS

Integral to every service, equipment relaxes the mind, prepares your client and ensures an unsurpassed journey that ends in amazing hair.

Daniel Galvin

Be inspired by INNOVATIVE BACKWASH CENTREPIECES that enhance the interior ambience, harness the skill of the stylist and satisfy the emotions of the client.

Exquisitely crafted, expertly engineered and innovatively conceived backwash experiences that uphold the integrity of your promise to deliver exemplary service standards.

With design in the result, innovation in their soul and comfort in the experience, every concept ensures enduring style, unrivalled performance and functional reliability.

RS ADRIA II

The evolution of a styling chair icon integrated into a state-of-the-art backwash concept.

RS ELITE

Service elevation in the form of a beauty couch to promote enhanced relaxation.

RS PRIME

Compact comfort without compromise.

RS ADRIA II features a 16° tilt mechanism and a gel filled neck cushion for supreme comfort. Thermostatic control ensures both consistent water temperature and pressure for total service reassurance delivered via its free-swiveling two-mode intelligent shower-head with retracting chord, as its hair-trap system eliminates the risk of blockages. Features a removable transparent backrest cover to protect your chair.

The RS ELITE and RS PRIME are equally as specified as the RS ADRIA II* ensuring feature-rich specification at the backwash. Whilst the RS ELITE delivers couch-style comfort, the RS PRIME presents a more compact system that suits more space limited environments.

LIVING

With eye-catching angular design for the ultimate in effortless comfort from the Epiphany collection.

This distinctively styled piece features a 16° tilt mechanism and extendable legrest for absolute comfort.

SWASH

Illuminating, simple and captivating, Swash delivers uniquely fashioned comfort and functionality.

Customise from body colour options as your client relaxes courtesy of a 16° tilt mechanism with an optional foot stool for added comfort.

LARGO

Contoured design and service-led performance in perfect harmony.

A fully motorised chair and tilting basin mechanism ensure pure comfort. Select a black or white ceramic basin and a black or white fibreglass shell to transform its look and add contrasting stitching for added style.

Deliver extra special treatment with a backrest massage option.

OMBRA

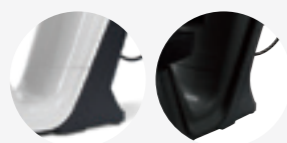

Eye-catching geometric appeal fused with practical, service-driven functionality.

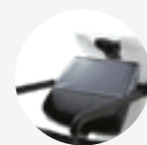

A tilting basin mechanism ensures the perfect position for your client, enhanced with the added option of a motorised leg-rest. With stylish chrome furnishings and a wide range of colours, contrasting upholstery and piping, the choice of a black or white basin and body shell allow for a truly personalised look suited to your salon.

FREE-STANDING BACKWASHES

Embrace new backwash dimensions that are versatile in their location, intriguing to behold and technologically fortified to upscale service provisions in every situation.

Daniel Galvin

BACKWASH UNITS

NRS SEPARATE

Go free-style and pair with your favourite backwash chair for enviable service quality and style.

A slideable ceramic wash basin ensures the perfect position is achieved for backwash services. Thermostatic control delivered via a free-swiveling shower-head with retractable chord promises consistent water temperature and pressure, as the hair-trap system eliminates potential blockages.

Compatible with: Cadilla BW, Cadilla M, Dainty, Dandy, GT Sportsman, Inova Ex, Legacy 95, Maxim and Maccow BW.

RS SWING

The intelligent, technically advanced solution that serves two stations.

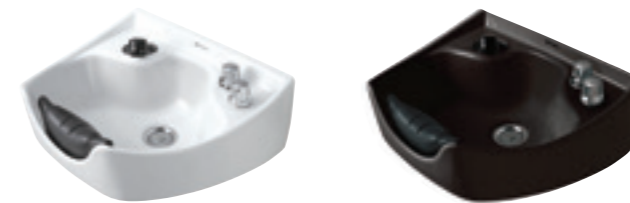

Ingenious and incomparably contemporary, the RS Swing rotates 180° to serve two work stations whilst incorporating all the technical features of the NRS Separate.

Compatible with: Cadilla BW, Cadilla M, Dainty, Dandy, GT Sportsman, Inova Ex, Legacy 95, Maxim and Maccow BW.

MAJOLICA PORTO

A pristine quality, immaculately conceived mountable wash basin.

Select from white or black as the gel-filled neck cushion provides complete comfort and support. With a the option of a single or double-tap, its free-swiveling shower-head delivers supreme shampoo services. Features a hair-trap system to prevent blockages.

Compatible with: Apollo 2 (all versions), Cadilla BW, Cadilla M, Dainty, GT Sportsman, Inova Ex, Legacy 95, Maxim.

LUXURY BACKWASHES

Luxury is embodied the experience of the individual and it is expressed in the intent of every salon. After almost a Century of innovation we have realised the promise of luxury, inspired the imagination of salons and crystallised its true meaning in backwash concepts that surpass expectation and form new perceptions to reach.

*As the epitome of refinement, high-end luxury and VIP SERVICE, Yume is unequalled. It also allows for the introduction of **EXCLUSIVE TREATMENTS** that immerse your clients in new experiences whilst boosting revenues.*

Inspire your clients to try new experiences and indulge in spa-style luxury. Yume transforms even the most lavishly appointed salon into a haven of tranquility and serenity.

Cradle your client in sublime comfort as they receive deluxe services that enhance impressions of your quality and proficiency.

YUME OASIS

A new representation of luxury where high-end refinement meets technical innovation for immeasurable convenience and sophistication with added in-salon theatrics.

YUME OASIS

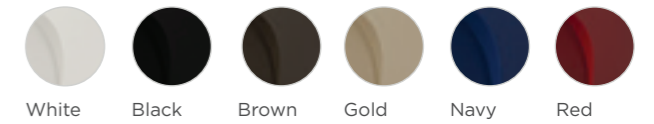

The embodiment of personalised luxury and technical innovation.

This inventive mobile backwash unit, with smooth running castors, engages with an ingenious under-floor service unit via a foot pedal to activate a thermostatically controlled water supply. A gel-filled neck cushion provides reassuring comfort as its free-swivelling, dual function shower head with retracting cord gives unhindered access to the client for unsurpassed services at the styling station. Designed to service multiple workstations.

STYLING FURNITURE

Colours, textures and shapes are evocative. They touch the senses, affect our emotions and soothe the soul. Salons appreciate the effect of ambience in every interior detail and we've created equipment that captures the essence of the feel you want to create.

Seamless COORDINATION AND PRACTICAL FUNCTION that generates a talking point and defines your unique style.

ADRIENNE
2 stations

EU or UK sockets

Adrienne delivers simplistic elegance and artistic styling. This two seater station features two full length, angled mirrors, a centre table and a three tiered shelving unit with four power outlets.

ALVIS DIO
2 stations

EU or UK sockets

A two position, fully functioning styling station featuring a backlit mirror, centre storage cabinet, two hairdryer holders and four power outlets.

SAPPHO
single station

Practical and sophisticated Sappho is a full length backlit mirror featuring a floating storage alcove and pull-out dryer holder.

ALVIS TETRA
4 stations

EU or UK sockets

A four position, fully functioning styling station complete with a double sided mirror with back lighting, centre storage cabinet, four hairdryer holders and a further eight power outlets.

PANDORA
reception desk - front

An understated yet welcoming front of house reception desk with subtle and calming LED lighting. Serves every practical function with ample storage for a pristine look and a well organised reception space.

PANDORA
reception desk - back

LUNA
reception desk - front

Create a welcome in your style from an inset LED light, mirror or opaque facade options and customise with finish and drawer handles of your choice.

reception desk - back

CASSIA
single station

Elegant, space conscious and sophisticated the Cassia, from the Arcadia Series, presents wall-mounted simplicity. Select from two marbled worktop options and an optional pull-out dryer-holder.

RHEA
double station

Poised and sophisticated Rhea, from our Arcadia Series, is an imposing two station centrepiece station with black or white marbled worktops and an optional pull-out dryer-holder.

OLDIE
mirror

Created especially for the Halo collection, Oldie mirror is crafted in old wood to perfectly complement the Regency inspired Dux styling chair.

SPITFIRE
mirror

With bold, industrial styling that's dramatic and eye-catching, the Spitfire mirror is designed to partner its namesake styling chair inspired by the legendary British aircraft.

ZEN MIRROR
standalone double station

ZEN MIRROR
standalone single station

ZEN MIRROR
wall-mounted single station

Crafted to accompany the Zen Series styling and waiting chairs, these free-standing single or double work stations, and wall-mounted variant, are equally as delicate and calming. Customise from three naturally inspired veneer options to evoke essence of nature and complete serenity.

DION
mirror

A perfect companion to the Aubrey and Dover barber stations. Elegant, understated simplicity that's full of purpose.

GRANDEUR
mirror

Simplicity and understated elegance are often the most impressionable and enduring qualities. Grandeur captures simplicity in its form for an aesthetic enhancement to any interior. Available with a black or brass lacquered wood frame for unmistakable style.

PROCESSORS

Our appetite for invention, innovation and technical perfection has yielded some of the world's most transformative technologies that restore, protect and preserve the integrity, health and vitality of hair.

Larry King Salon

The application of infrared and ultrasonic technologies has seen world firsts emerge in the shape of leading-edge concepts that transform hair colouring and other technical services.

ROLLER BALL F - transformative technology for hair that is revered worldwide for genuine results and a tangible effect on business.

MIST PROCESSORS

Spa Mist II and Micro Mist embody our quest for science-based innovation. Discover micro-fine mist technology that allows for the infusion of treatment ingredients, colour pigments and chemical processes for unsurpassed results without dilution or damage to the integrity of hair.

MICRO MIST

For seated clients

Features include: Fully programmable and mobile, Micro Mist enhances chemical service outcomes by opening the cuticle layer at 40°C-50°C and re-sealing the cuticle to lock-in colour, treatments and chemical service products.

SPA MIST II

For seated / reclined clients

Features include: Ultrasonic technology opens the cuticle layer at 40°C allowing for the deep penetration of treatments, hair colour and other chemical service ingredients as its cool shot feature locks the cuticle and seals the ingredients in. The result. Visibly enhanced shine, colour vibrancy and more enduring outcomes.

MIST PROCESSORS

Using innovative mist technology, the absence of 'steam' ensures heat damage is eliminated. By opening the cuticle layer at low temperatures, colour pigments, treatment ingredients and other chemical processes, such as perms, are infused deeper into the hair shaft without dilution. When sealed in via the cooling features, hair health is notably improved, more glossy and silky smooth; colour is more vibrant and lasting and chemical service outcomes are more durable and resilient.

Combine SPA MIST II with YUME SHAMPOO SYSTEMS for a mist infused experience that enriches each service and yields enhanced treatment outcomes for shinier, healthier hair.

MICRO MIST

A culmination of research, technical innovation and a deep scientific comprehension of hair that has produced the essential partner for technical service perfection.

Deeper cuticle penetration of any treatment particles ensures better results; colour is more vibrant and enduring, and other chemical processes last longer with the help of mist.

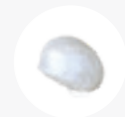

SPA MIST

Mobile innovation that transforms treatment, colour and chemical service expectations.

OPTIONS

Customise your Spa Mist II
with the trolley option

SPA MIST

Add the power of technology to **TRANSFORM CLIENT EXPECTATIONS** and accelerate your business. Convenient, compact, mobile processors that fit seamlessly into any salon situation.

SPA MIST II

Spa Mist II uses a soft, microscopic mist that penetrates the scalp and hair. Used with treatments such as Head Spa, Colouring, Perm or all round feel-good hair care the Spa Mist II helps you care for hair so clients leave looking and feeling beautiful. An ultrasonic transducer vibrating at 1.6 million times a second generates a fine mist of microscopic water particles. The temperature and quantity of the mist can be freely controlled and used for numerous hair treatments as well as colour processing and perms.

OPEN MIST - WARMTH CREATES COMFORT

The mist and warmth combine to relax the client.

Allows staff to create a more luxurious shampoo experience scalp treatment.

SCALP CARE

Open the pores to clean the scalp.

Through the mist moisturising and heating, pores open to free up keratotic plugs and debris.

With minimal burden to the scalp, debris and keratotic plugs are removed leaving cleansed and scalp clean.

HAIR CARE

Penetrates deep into the hair for longer-lasting effect.

Opens the cuticle layers so that the treatment particles go deep into the hair.

Cooling closes the cuticle to keep the hair healthy.

COLOUR - EVEN COLOURING - MINIMAL FADING

The microscopic mist is sent into the cap where it circulates surrounding every hair strand with heat ensuring an even finish.

Cooling fixates the hair colour into the hair for longer-lasting results.

PERM - BEAUTIFUL CURLS IN A SHORT TIME

Uniform heating gently promotes the softening process throughout the hair.

Creates beautiful curls in minimal time.

HAND CARE - MOIST SOFT SKIN

Heated mist enhances the cleansing and moisturising of hands.

Brings added value to manicures and other hand care services.

INFRARED PROCESSORS

Fulfil the wish of every client for more vibrant, intense and enduring colour processed in half the time to accelerate your colour business.

ROLLER BALL F
Mobile version

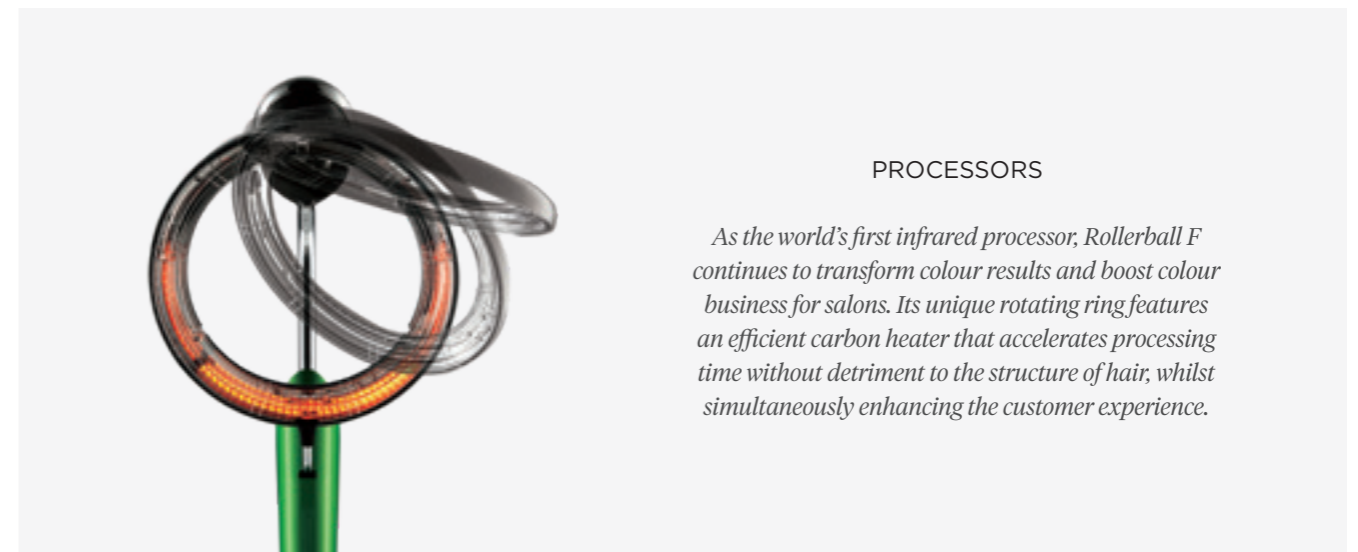

ROLLER BALL F
Wall-mounted version

Available in mobile or wall-mounted format, its innovative 3-section rotating carbon element features programmable presets or manual mode for customised settings, with 7 scalp temperature levels ranging from 34°C-52°C. The mobile version adds theatre to services in an entirely convenient way, as the wall-mounted option features a space-saving retracting arm mechanism.

Programmable presets, integrated cooling system low temperatures, compact & mobile.

PROCESSORS

As the world's first infrared processor, Rollerball F continues to transform colour results and boost colour business for salons. Its unique rotating ring features an efficient carbon heater that accelerates processing time without detriment to the structure of hair, whilst simultaneously enhancing the customer experience.

ROLLER BALL F

The world's most transformative processing technology that redefines colour expectations and actively increases the value of your colour business.

Wall-mounted version with space-saving retractable arm

Available in 7 colours

Available in 7 colours

Easy-wipe surfaces and control panel

ROTATING HEAT SOURCE ENSURES EVEN TREATMENT

INFRARED SENSOR MAINTAINS SCALP TEMPERATURE

COLOUR OPTIONS

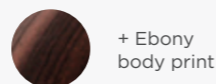

Mobile | Wall-mounted

Autumn Blue Black Crema

Matcha Green Red Silver

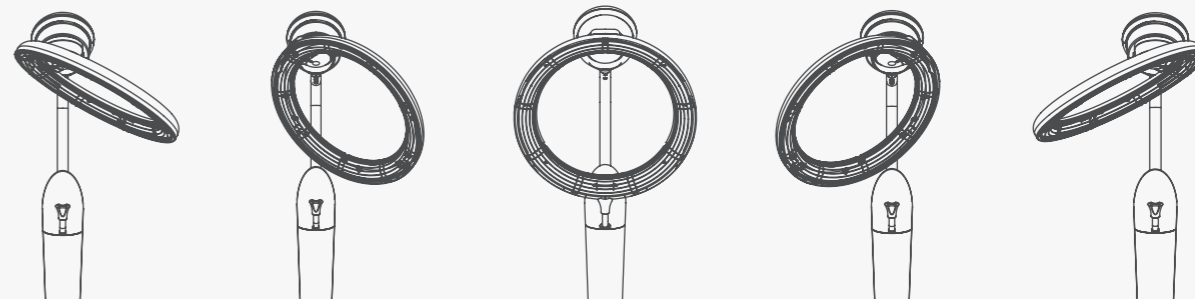

+ Ebony body print

ROLLER BALL F

Roller Ball F is incredibly responsive, reaches 40°C IN ABOUT TWO MINUTES and halves the processing time of treatment chemicals.

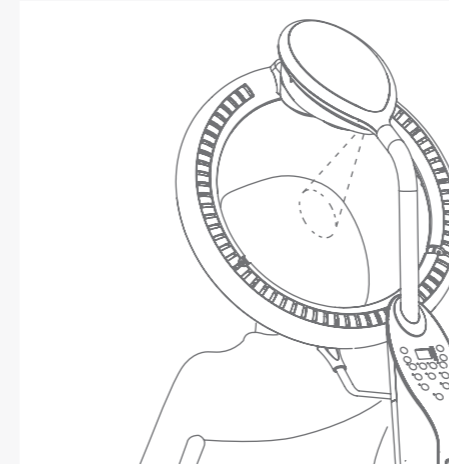

The complete process achieves longer-lasting colour and perm results than alternative heat processors.

Pre-programmable and adjustable settings give Technicians real choice and complete control over the process. The infrared sensor maintains scalp temperature resulting in even results.

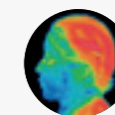

The Roller Ball F does not exceed the scalp temperature at which hair becomes damaged.

Colouring: 5 - 15 mins
Perming: 3 - 12 mins

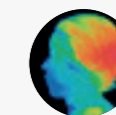

The rotating heat elements works all the way around the head ensuring an even treatment for every client.

Or, pause the rotation at any time and activate selected zones of the heating element to focus processing on any one part of the head - for highlights, balayage or conditioning treatments this function is invaluable.

Using 3 heat zones:
10 mins exposure

Using 2 heat-zones:
10 mins exposure

ACCESSORIES COLLECTION

Enhance every aspect of salon life and appreciate superior functionality in every detail with custom-made accessories that fulfill every aspiration.

ASISTA II

Chair mounted convenience that serves every styling station.

A stainless steel shelf and dryer holder that neatly folds away after use.

STACK TROLLEY

A stackable trolley concept that serves every service purpose and neatly stows away.

Distinctively finished in chrome, Stack features two fold-away trays and a detachable walking handle.

D-GALLEY TROLLEY

A multi-purpose trolley for every conceivable demand.

With a stylish brushed-steel finish, a deep-set drawer* and shelves serve practical functions with an ingenious retractable shelf that serves as a holder for dryers, brushes and utility bowls. Also features mirror storage. *Deep set drawer and mirror are optional.

ZEN TROLLEY

Your work station partner.

Seamlessly blends with Zen furniture for a thoroughly coordinated service approach. Select from three wood veneer options to suit your style.

ZEN STOOL

Style in comfort.

Deliver supreme service coordination by customising from a black or silver wheel base and a variety of upholstery colours. Smooth casters and 360° rotation give stylists complete service control in style.

D-STOOL ALUMI/CLEAR

The smooth running stylists' companion.

Work in style with a matt silver finished base and brushed aluminium or clear acrylic seat. Fully height adjustable and hydraulically sprung with smooth running transparent castors for pure comfort and agility, whilst ensuring hair does not get trapped in the wheels.

HOT CABI WHITE

The ultimate companion for traditional shave services.

A highly efficient towel warmer with ultra-violet sterilisation, and removable basket and drain tray.

MINI CABI WHITE

Compact towel warming unit.

It's everything you've come to expect from the Hot Cabi in a more compact format.

MINI CABI STEEL

A towel warmer with added style and substance.

An uber-efficient towel warmer with a unique take on style. Efficiently warms towels with a removable basket and drain tray.

M-STOOL

The ultimate tilting stool customised for backwash technicians.

Supremely stable and stylish, rest on the richly padded seat as hydraulic power eases you up or down into the perfect service position. The 8% backward or forward tilt movement gives unbridled access to the client, as the heavy base and four non-slip rubber feet combine to hold your position. Use the carry-handle or wheel to your next service.

ESPOIR STOOL

Advanced functionality for backwash technicians

Designed for the Yume Espoir, yet equally suited to all backwash services, its hydraulic sprung seat is highly padded for complete comfort. The 8% titling motion is stabilised via a heavy base with rubber feet to prevent unwanted movement.

YUME STOOL

The pinnacle of advanced stool technology.

As the perfect accompaniment to the Yume series, its 8% forward and backward tilt movement and 360° multi-directional tilt meets every service requirement. Fully height adjustable with a hydraulically sprung padded ergonomic seat for supreme comfort with a heavyweight base and rubber feet that are reassuringly stable.

COLOUR OPTIONS

Colour defines your identity. It evokes emotion, alters perspectives and is an expression of who you are. Tailor your equipment choices to reflect your brand, your values and your culture.

CUSTOMISING & UPHOLSTERY

To understand colours, textures and tone combinations requires an appreciation of their affect on human emotion and our inner-senses. Colour alters perspectives and expresses who you are and, as a vital part of your brand, colour defines your identity and service culture. The power to elevate and uplift the spirit or relax and calm the senses is inextricably linked to colour and, as part of your salon's atmospherics, colour embodies your interior design approach and creates a tangible ambience for your customers and team.

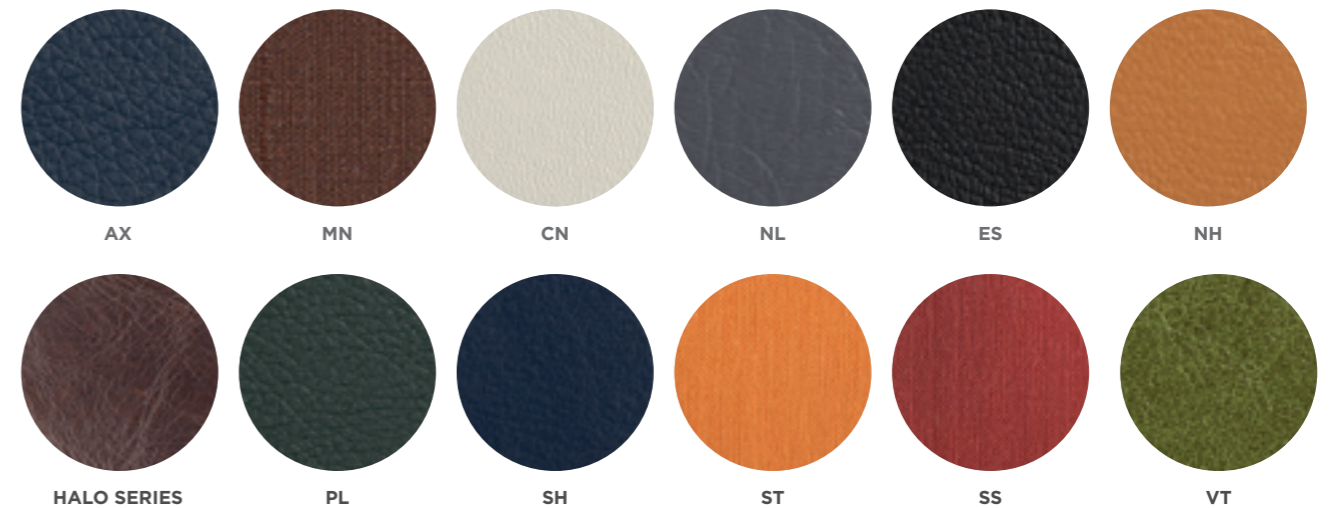

For this reason, our team of upholstery experts meticulously consider colour and texture palettes for every concept. And in addition to their aesthetic contribution, every practical function and service eventuality is taken into account to maximise durability and deliver many years of uninterrupted performance.

Equipment defines customer expectations and your aspirations as a business, and the ability to customise your equipment choices ensures your vision is fulfilled and your dream is realised. It also ensures that the experience you want your customers to enjoy is achieved in every service, every time they visit.

A diverse range of colours across our 'Standard' or 'Alternative' collections provides the scope to tailor each piece to your requirements, with 'Special Options' available through our appointed dealer network.

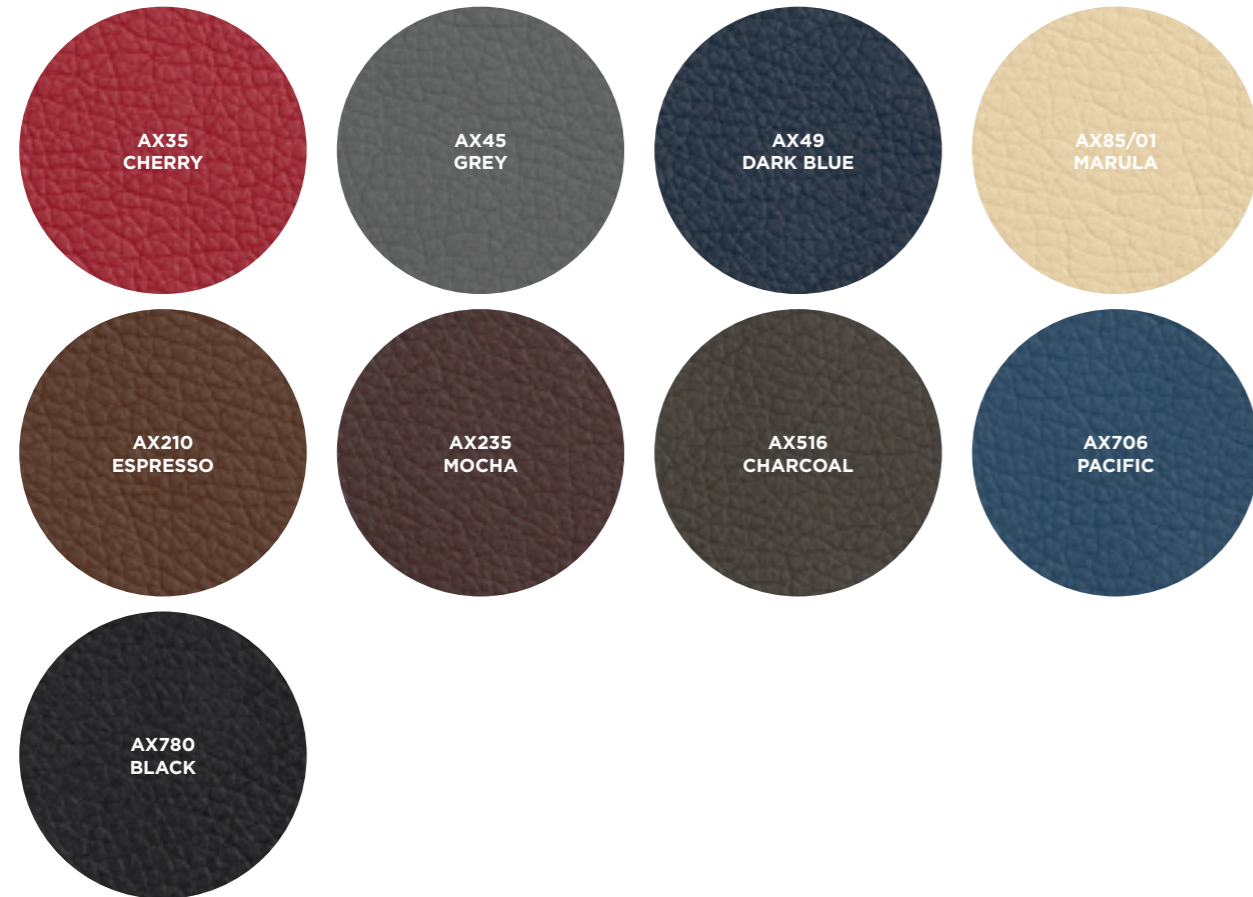

Now you've chosen the perfect equipment, see your world in colour, define your style and fulfil your aspirations just as you intended.

WARRANTY

STANDARD LIMITED WARRANTY POLICY

All Takara Belmont products are guaranteed against mechanical, electrical and workmanship faults, under normal working conditions, for a period of three years from date of delivery. Labour is covered for the first 12 months of the three year period.

This guarantee shall become null and void if the damage and its consequences are due to improper manipulation of the product, or modifications to the product are carried out by persons not authorised by Takara Belmont (UK) Ltd.
