PER LE ZONE LAVAGGIO E LE ZONE TECNICHE BEAUTYSTAR SUGGERISCE L'UTILIZZO DI SKAY SCURI. L'AZIENDA NON GARANTISCE LA RESISTENZA DELLO SKAY ALLE MACCHIE DI TINTURA
CONSIGLI: lavare con spugna non abrasiva imbevuta di acqua e sapone neutro.

Rimuovere le macchie di lacca con acqua e sapone o utilizzare in alternativa l'apposito detergente Softasept N®.

ATTENZIONE: non utilizzare mai alcool, benzene, candeggina, solventi, detergenti chimici o spray lucidanti.

Rimuovere immediatamente le macchie di tintura! Maggiore è il tempo che la tintura rimane sullo skay e minori sono le possibilità di pulire a fondo lo skay stesso: la tintura lo aggredisce per tutto il tempo che resta sulla sua superficie.

Non fare accomodare clienti che indossano tessuti denim scuri (jeans) su poltrone e lavatesta rivestiti in skay chiaro. In alternativa fare indossare ai clienti un camice.

Non è possibile eliminare le macchie di denim senza danneggiare lo skay.

COLOURED ECO-LATHERS.

THE COMPANY DOES NOT GUARANTEE THE RESISTANCE OF ITS ECO-LEATHERS TO COLOUR DYES.

MAINTENANCE AND CLEANING ADVICE:

Always clean with a non abrasive sponge soaked in water and neutral soap.

Remove lacquer stains with water and neutral soap or alternatively use a specific detergent such as Softasept N®

ATTENTION: never use pure alcohol, benzene, bleach, solvents, chemical detergent or spray polish.

Always immediately remove dye stains! The longer the dye remains on the eco-leather, the lower the probability of thoroughly cleaning the surface.

Colour dye damages the whole time it remains present.

Where light coloured eco-leather finishes are preferred, customers wearing denim clothes should be invited to wear capes or not come into direct contact with the fabric.

Denim stains cannot be removed without damaging the eco-leather itself.
